

Mining, Smelters and Stock Quotations

HUNDRED TON PINAL COUNTY IS ON A BOOM

SOON
At Chihuahua One Is Now Being Installed and Is Expected To Be In Operation By January 1.

CHIHUAHUA, Mex., June 7.—The 100-ton stamp mill and machinery for the famous Lluvia del Oro gold-silver mine in the Empire district of Chihuahua is now being installed and will be in operation by January 1 next, in the past the Lluvia del Oro has had no equipment worthy of the name, but it is expected that the mine will be one of the heavy producers when the new machinery begins running.

Robert J. Coleman of Los Angeles general manager of the company was here this week and stated that the wagon road had been practically completed through the deep gorges a distance of 12 miles to where it is down the canyon to the front trail road. This road was necessary for the transportation of the heavy machinery of the mill.

The mill is being located about 1,000 feet distant from the mine. The rock crushers will be located at the mine from which the crushed ore will be conveyed to the mill by an aerial tram way. The plan of the company is to reduce everything to bullion in the ground.

The wagon road is a wonderful achievement, as it traverses out of the most rugged sections of the district.

The Lluvia de Oro s-l to the present owners for \$2,000,000 gold, when it was nothing but a prospect, and there was not a hole on the property more than 10 feet deep.

Pinel county's mining boom continues to expand and one could hardly fire a long range rifle in the hills of this section now without hitting some mining man looking for a copper property to bond or buy.

Four more groups, situated in the vicinity of Winkelman were taken on working bonds this week, and partial payments were made in each instance.

Engineer Benedict and associates, of Nevada, obtained a bond on the Jacob Snyder group, which adjoins the O'Connell group on the west. We could not ascertain the amount of terms of the bond.

The Nevadans also bonded the McHugh group, which adjoins the Snyder group on the west and north, for \$120,000, paying ten per cent down.

Nevadans also obtained bonds on the '79 mine and the O'Brien and Wilson properties, which surround the '79. The price on the '79 is \$60,000, of which Judge Geo. Scott gets \$10,000, Robert Brannan \$10,000, J. I. Coleman \$10,000, Jack Brannan \$10,000, and Dennis O'Brien \$20,000. We could not ascertain the amounts to be paid for the O'Brien, the Wilson and the Snyder groups.—Florence Blade.

SAMPLING WORKS BEING ENLARGED

Copper Queen Smelter Gets Addition to Take Care of Business.

At the sampling works of the Copper Queen smelter in this city an addition is being made to the building. The addition is seventy feet long and it is required to accommodate the increasing business of the big smelter. Thus it will be seen that every preparation is being made to handle the increased smelting plant for which arrangements have been made.

The last of the material required for the completion of the 135-foot extension on the east end of the smelter arrived this week and some of the structural steel is beginning to arrive for a like extension on the west end of the smelter building.

TESTER & HICKS, Brokers.

Over Ninety-nine and a half per cent of the wheat crop in the United States is expected to be a bumper crop. The stocks are weak and prices are generally lower than last week. There have been only slight changes in prices in the wheat market. Superior and Pittsburg, Varren and American appear to be a little firmer, while Shattuck and Denn declined fractionally today. Bisbee Extension is in good demand around \$10. Butte & Arizona remains firm with fair demand at quoted prices.

Closing Quotations:

	Bid	Asked
Butte & Arizona	\$154.00	\$155.00

SINKING NEW SHAFT

(Special Wire to Ducey & Overlock.)
BOSTON, June 7.—Recent advices from Butte say that new shaft of the North Butte Extension Copper Mining company show down seventy feet. The shaft passed through considerable vein matter, much of which was very soft causing some inconvenience in sinking. This has all been overcome, however, and now the shafts are working in solid rock showing mineralization.—Boston News Bureau.

PAINE'S COPPER LETTER.

(Special Wire to Ducey & Overlock.)
BOSTON, June 7.—A better feeling still prevails and stocks were strong all day. There was considerable liquidation by traders in advance, but it was well taken. Greene Cananea seems to be on the upturn and ought to get back around 20. We do not expect a bull market but believe that prices will work a few points higher. The money situation is worse and there seems to be no hope for easy money for a long time to come.

Shannon declined 50 cents yesterday payable July 1st to stock of record June 5th.

QUARREL FATAL TO ONLOOKER.

BOSTON, June 7.—A quarrel among Italians last night at the North End, resulted fatally today to Peter Prizom, an onlooker, who had received a blow from a club. Vincenzo Valentino was stabbed in the breast, but will recover. Joseph de Laurentia is under arrest.

ANOTHER LIFELESS DAY RECORDED

Limited Buying Power Seems to Be Behind Local Stocks.

(By Frank J. Graf.)
This has been another lifeless day, today so far as any change in the market was concerned. New York market showed better strength, closing stronger than at the close of last night. Boston and local stocks remain about the same. Local stocks seemed to be provided somewhat, though, and there is limited buying power behind any of them. Down at \$7.00 is being offered freely with stocks fairly well taken. American and Warren are being bought up some as is Globe, which manages to hover around \$10.00. Wolverine & Arizona at \$1.50 is not to be had and Superior at \$14.25 is going begging. Greene Cananea showed a little surt today, closing at \$15.00. North Butte sold ex-dividend, closing at \$80.00. Bisbee Extension is picking up with bids of \$1.57 falling to locate any stock whatever. The balance of the list shows no change to speak of.

Closing Quotations:
